AMER. ZOOL., 32:737–739 (1992)

INDEX TO VOLUME 32

The index covers only the major papers, their authors, and the principal headings. It does not include the abstracts. For the latter there is a separate index to authors on pages 178A–186A. Minutes of business meetings, officers, and reports are entered only under American Society of Zoologists.

Abstracts, see note above.
  Index of authors, annual meeting, Vancouver, 178A–186A.
  Of annual meeting, Vancouver, 1A–177A.
ADAMS-WILEY, MARY, 543.
American Society of Zoologists,
  Committees, iv.
  Divisional officers, iv.
  Honorary members, vi.
  Minutes of annual business meeting, vii.
  Officers for 1992, iv.
  Presidents, iii.
  Sponsoring members, vi.
American Zoologist,
  Directions for authors, cover 1.
  Editorial board, cover 1.
  Statement of ownership, 740.
  Subscriptions, cover 1.
ATKINSON, JAMES W., 103–105, Development and macroevolution: Introduction to the symposium, 103–105.
BAKKEN, GEORGE S., Measurement and application of operative and standard operative temperatures in ecology, 194–216.
BARLOW, GEORGE W., Is mating different in monogamous species? The Midas cichlid as a case study, 91–99.
BEAMS, HAROLD W., In memoriam, 732–733.
BINDER, NANCY D., see FABER, J. JOB *et al.*
BIOPHYSICAL ECOLOGY: METHODS, MICROCLIMATES, AND MODELS, 149–248.
  Activity costs in mammals, 238–248.
  Heat exchange of insects, 225–237.
  Introduction, 151–153.
  Modeling energy budget constraints, 154–178.
  Models and approximations, 179–193.
  Radiative heat gain, 217–224.
  Use of operative temperatures, 194–216.
BLACKBURN, DANIEL G., Convergent evolution of viviparity, matrotrophy, and specializations for fetal nutrition in reptiles and other vertebrates, 313–321.
Book reviews, 145–147, 355–357, 541–542, 606–608, 734–736.
BURGGREN, WARREN W., Respiration and circulation in land crabs: Novel variations on the marine design, 417–427.
BURNETT, LOUIS E., Integrated function of the respiratory pigment hemocyanin in crabs, 438–446.
BYRNE, B. CLARE, see KYRIACOU, CHARALAMBOS P. *et al.*
CALLARD, IAN P., LISA A. FILETI, LORELEI E. PEREZ, LISA A. SORBERA, GEORGIA GIANNOUKOS, LORRIE L. KLOSTERMAN, PAUL TSANG, AND JOHN A. MCCRACKEN, Role of the corpus luteum and progesterone in the evolution of vertebrate viviparity, 264–275.
CALLARD, IAN P., see WOURMS, JOHN P.
CARSTENSEN, KAUS, see GRIMMELIKHUIJZEN, CORNELIS J. P. *et al.*
CASEY, TIMOTHY M., Biophysical ecology and heat exchange in insects, 225–237.
COLGAN, MITCHELL W., see GLYNN, PETER W.
THE COMPLEAT CRAB, 359–540.
  Acid-base balance in aquatic crustaceans, 407–416.
  Chemosensation in crabs, 363–369.
  Claw muscle atrophy, 485–494.
  Constraint on reproduction output in crabs, 503–511.
  Context-sensitive crab foraging studies, 396–404.
  Control of molt in crabs, 450–458.
  Decapod larvae: Dispersal, mortality and ecology, 512–513.
  Discussion of Session I, 405.
  Discussion of Session II, 447.
  Exercise in crabs, 382–395.
  Function of hemocyanin in crabs, 438–446.
  Herbivory in crabs, 370–381.
  Introduction to Session I, 362.
  Introduction to Session II, 406.
  Introduction to Session III, 448–449.
  Introduction to Section IV, 501–502.
  Introduction to the Symposium, 361.
  Physiological aspects of a molt, 459–469.
  Pollutants, molting, and regeneration, 495–500.
  Proteins of the crustacean exoskeleton, 470–484.
  Reproductive biology of snow crab, 524–533.
  Respiration and circulation in land crabs, 417–427.
  Size at maturity in crabs, 534–540.
  Water and solute balance, 428–437.
COOPERSMITH, CAROL, see LENNINGTON, SARAH *et al.*
Coral reefs, Long-term dynamics of, 623–731.
Crab, The compleat, 359–540.
DARMER, DOROTHEA, see GRIMMELIKHUIJZEN, CORNELIS J. P. *et al.*
DEFUR, PETER L., Introduction to Session II: Oxygen, salts, and water balance, 406.
DEGRUY, CLAUDIA V., see FINGERMAN, MILTON.
DEVELOPMENT AND MACROEVOLUTION, 101–144.
  Introduction, 103–105.
  Morphological problem, 106–112.
  Pluralism and competition, 135–144.
  Rates of development and evolution, 123–134.
  Waddington's legacy, 113–122.
DOMJAN, MICHAEL, Adult learning and mate choice: Possibilities and experimental evidence, 48–61.
DONE, TERENCE, Constancy and change in some Great Barrier Reef coral communities: 1980–1990, 655–662.

Ecology, Biophysical: Methods, microclimates, and models, 149–248.
EVOLUTION OF VIVIPARITY IN VERTEBRATES, 249–354.
Corpus luteum, progesterone and vertebrate viviparity, 264–275.
Evolution of viviparity and matrotrophy, 313–321.
Homology and convergence in viviparity, 256–263.
Maternal-fetal oxygen transfer, 322–330.
Osmoregulation in prenatal elasmobranchs, 294–302.
Physiology of placental transfer, 343–354.
Piscine viviparity, 276–293.
Placental structure and function, 331–342.
Reptilian placental structure and function, 303–312.
Retrospect, 251–255.
